The 5th Windstorm Reserach – High Tatra Mts

Reviewed Seminar Proceedings

23-24 November 2012, Tatranská Lomnica, Slovakia

Editor:

Ing. Peter Fleischer, PhD.

Reviewers:

RNDr. Milan Kozánek, CSc.

Ing. Zuzna Sitková, PhD.

Ing. Andrej Kunca, PhD.

Ing. Peter Fleischer, PhD.

Dr. Ing. Bohdan Konôpka

RNDr. Ľuboš Halada, CSc.

Ing. Svetlana Bičárová, PhD.

Ing. Ján Ferenčík

ISBN: 978-80- 970332-1-7

Contents

Barka Ivan, Bucha Tomáš	Forest health conditions in the Tatra Mts and Slovakia assessed by remote sensing technique	1-2
Barta Marek, Ferenčík Ján, Kautmanová Ivona, Kozánek Milan	Bauveria ssp. Infecting Ips typographus, in vitro isolation and virulence bioassay-preliminary results	3-4
Bičárová Svetlana	Wind characteristics of the lower southern slopes in the High Tatra Mts.	5-6
Čerevková Andrea, Renčo Marek	Changes in structure of soil Nematode communities in TANAP forest ecosystems	7-8
Cudlín Pavel	Regeneration processes in mountain spruce forest after a windfall	9-11
Čičková Helena, Kozánek Milan	Utilisation of geometric morphometrics for discrimination of European spruce bark beetle (Ips typographus L.) populations in Western Carpathians	12-13
Čuchta Peter, Urbanovičová Veronika, Lóšková Jana, Miklisová Dana, Kováč Ľubomír	Soil Collembola in differently managed windthrown forest stands of the High Tatra Mts.	14-16
Feketeová Zuzana, Hanajík Peter	Mikrobiologické charakteristiky pôd na kalamitných plochách v r. 2011	17-19
Fleischer Peter, Fleischer Peter jr, Celer Slavomír, Eshius Henk,Lassen Aninha, Čekovská Lucia	Factors controlling temporal and spatial soil respiration in Norway spruce forest affected by windthrow in the High Tatra Mts.	20-21
Fleischer Peter, Matejka František, Střelcová Katarína, Jakubjak Ondrej	Meteorological and microclimate conditions on windthrow in the High Tatra Mts in 2012	22-23
Florian Štefa, Barta Marek, Kozánek Milan	Fixácia spór Bauveria bassiana v polymérnej matrici	24-26
Galko Juraj, Vakula Jozef, Gubka Andrej, Rell Slavomír, Nikolov Christo	Catches of the European sprce bark beetle to different pheromone traps in Tatranska Javorina – preliminary results 2012	27-28
Gómoryová Erika, Horník Matúš	Organic horizons properties and soil microorganisms at the windthrow plots in Tatra National Park	29-30
Hlôška Ladislav, Chovancová Barbara, Chovancová Gabriela	Changes of small mammals communities caused by disturbance	31-32
Kalúz Stanislav, Ferenčík Ján, Vrabec Michal	Study sites in TANAP and their Acarofauna	33-34
Krascsenitsová Eva, Stauffer Christian, Kozínek Milan, Ferenčík Ján, Roller Ladislav, Bertheau Coralie	Local-scale genetic structure of the spruce bark beetle Ips typographus in the Carpathian Mountains	35-36
Kaštier Peter, Šebeň Vladimír, Konôpka Bohdan, Pajtík Jozef, Bošeľa Michal	Quantification of food potential in dendromass of rowan tree and game damage intensity	37-38
Kováč Jozef	Škody zverou na kalamitných plochách	39-40

Kyselová Zuzana, Homolová Zuzana	Succession of vegetation and decomposition of cellulose on windfall sites in the High Tatra Mts	41-42
Lóšková Jana, Urbanovičová Veronika, Miklisová Dana, Kováč Ľubomír	Effects of different forestry practice on soil Pribatida in windthrow stands of the High Tatra Mts	43-45
Majzlán Oto	Fenológia pôdneho hmyzu ma kalamitných plochách Tatier	46-48
Michalová Zuzana, Weiser Martin	Influence of vegetation, wooden biomass and soil moisture on growth performances of Norway spruce in the High Tatra Mts	49-51
Michelčík Peter	Rastové pomery smrekovcovo-smrekového porastu na TVP Tatranské Zruby	52-54
Miterpáková Martina, Hurniková Zuzana, Chovancová Barbara, Kornajčík Milan	The current research on parasite fauna in animals inhabiting Tatra National Park	55-56
Nikolov Christo, Ferenčík Ján, Kajba Matúš, Gubka Andrej, Kunca Andrej	The Europen spruce bark beetle, Ips typographus (L.) outbreak in High Tatra Mts: case 2005-2011	57-58
Novák Viliam, Hlaváčiková Hana	Influence of rock fragments and conopy structure changes on the soil water dynamics at sites affected by windstorm	59-60
Rojan Elžbieta	Microrelief changes initiated by windfall in 2004 in the Slovak High Tatra Mts	61-62
Šporka Ferdinand, Krno Ilja, Lánczos Tomáš, Kalaninová Daniela, Bulánková Eva, Jarošová Kristína	Environmental variables affected water biota in small streams overflow thrugh windstorm deforested areas	63
Štefková Elena	Species composition of diatom communities of small streams flowing through windstorm deforested area	64
Šustek Zbyšek	Results of monitoring of carabid communities in forest damaged by windstorm in High Tatra Mts in 2004	65
Urbanovičová Veronika	The impact of windthrow and management practices on epigeic Arthropoda with special reference toColembola communities in the High Tatra Mts	66-67
Vidlička Ľubomír	Tvorba databázy fauny Vysokých Tatier a možnosti jej využitia pri biologickom výskume	68-69
Vido Jaroslav, Tadesse Tsegaye, Kandrík Radoslav, Fleischer Peter, Vidová Katarína, Borsányi Peter, Faško Pavol	The threat of drought over the High Tatra Mts on a mesoclimate scale	70-71
Vrabec Michal, Kalúz Stanislav, Ferenčík Ján	Phoretic mites associated with bark beetles	72-73
